

Plans and result of Campus IPv6 project

Mohácsi János, mohacsi@niiif.hu

Kovács András, akov@niiif.hu

NIIF Institute

In the presentation, the Campus IPv6 project, supported by the GVOP AKF program, will be introduced, which will enrich the existing IPv6 services of NIIF with several new elements helping users to deploy IPv6.

The research and development activities will be shown, including the new upcoming services and management systems that will be the results of the ongoing work. The exploitation and usage of the results of the Campus IPv6 project will be also presented.
