

Plans and result of Campus IPv6 project

János Mohácsi, mohacsi@nif.hu

Péter Stefán, stefan@nif.hu

NIF Institute

In the presentation, the latest results of the Campus IPv6 project, supported by the GVOP AKF program, will be presented.

The research and development activities will be shown, including the new result of ipv6 security development, management systems and new ipv6 enabled services introduced at NIF. Also the ongoing development of ipv6 enabled grid middleware will be presented.
