

BEST PRACTISES FOR CATALYST 6500

*Attila Balla, attila.balla@synergon.hu
Synergon Information Systems Plc.*

The Catalyst 6500 platform is one of the most popular integrated LAN switch and high-performance router in academic sphere.

The goal of the presentation is to introduce some tools how we can operate efficiently a Catalyst 6500. The presentation will give a detailed view about switching, routing, management and security recommendations.
